

PEDIATRIC BEHAVIORAL HEALTH REFERRALS:

GUIDANCE AND DIRECTORY FOR

PEDIATRIC PRIMARY CARE PROVIDERS IN NEW HAMPSHIRE

September 2022

This publication is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$445,000 with 20% financed with non-governmental sources. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS, or the U.S. Government. For more information, please visit [HRSA.gov](https://www.hrsa.gov).

About this resource

This resource includes both a flyer and a limited directory of mental health services in New Hampshire to support pediatric and primary care providers in offering successful referral options for their patients who may need mental health services.

The directory includes information such as practice name, address, phone number, website, towns served, Medicaid acceptance, and programs or types of services. The directory does not list the many individual private mental health providers practicing in New Hampshire due to the changing nature of practices, providers, and insurance. However, additional providers may be included in future versions.

An online searchable database has been created with the same providers and information. This tool may be easier for providers to identify referral partners because it can be searched by county, service type, and if they accept Medicaid.

Additionally, the online directory includes additional information on practices that is not provided in this pdf version including 'insurance plans accepted' and 'provider to provider referral process'. Please visit [NHPIP.org/referrals](https://nhpip.org/referrals) to access the online directory.

Note for providers

The University of New Hampshire and the New Hampshire Department of Health and Human Services do not endorse any listed provider organization and do not guarantee the quality or accuracy of the services listed in the directory.

Note for organizations listed in the directory

All directory information was collected between June 2022 – August 2022 from online research on the providers' websites and outreach via phone and email. *If your organization is listed and you would like to update the information provided in this directory for its next publication, please email NHPIP@UNH.edu*

State-wide Directories and Resources

NH Rapid Response Access Point

24/7 Mental Health Crisis Hotline: 1-833-710-6477

Individuals can call or text to speak to trained and caring clinical staff. You'll be served by compassionate providers who can help you access vital resources in a crisis, including mobile response if needed.

<https://www.nh988.com/>

211

NH residents or providers can call to be connected, at no cost, with trained Information and Referral Specialists who can provide them with the health and human service information they need to get help, give help, or discover options.

<https://www.211nh.org/>

New Hampshire Coalition Against Domestic and Sexual Violence

24-hour Domestic Violence Helpline: 1-866-644-3574

24-hour Sexual Assault Hotline: 1-800-277-5570

Individuals can call the statewide helpline to talk with an advocate.

New Hampshire Family-Centered Early Supports and Services

Program Directory from NH DHHS

Developmental Services Area Agencies

Agencies that support children over the age of three

<https://www.dhhs.nh.gov/dcbcs/bds/agencies.htm>

Family Resource Centers

Provide comprehensive services to parents and their children from pregnancy through age 18.

Services may include parenting classes, parent-child groups, early learning centers, play groups, assistance with tax preparation, information and referral, after school assistance, and other programs to meet specific community needs.

<https://c1abd428.caspio.com/dp/9c5c6000eedd5ca82fbb46aba81d>

Student Assistance Program

SAP counselors served more than 10,000 kids in 2016, helping youth with various social issues, such as bullying, dating violence, and peer pressure. The program has grown from five schools in 2013 to more than 40 today.

HOW DO I...

Make a quality mental health referral?

SCREENINGS & ASSESSMENTS

- Evidence-based screening tools (e.g., PHQ-2) help identify patients who need further assessment and support.
- Assessment tools, such as PHQ-9 for depression, GAD-7 for anxiety, or DAST for substance use help clarify the level of need to ensure that you are making appropriate referrals; these tools can also be used by the primary care team to treat to target and monitor treatment progress.

SHARED GOALS

- Join your patient in treatment planning. Determine what they are motivated to work on and what types of services they are willing to consider.
- Your patient's goals may not align with the goals of the medical provider. Creating shared goals will help them experience success and continue with the treatment process.

IDENTIFY RESOURCES

- Identify mental health professionals who can provide the services your patient needs and is willing to engage in.
- Consider the urgency and intensity of services needed. Private providers often have more availability while Community Mental Health Centers provide more comprehensive services.
- Encourage the parent/guardian to sign a Release of Information form to coordinate with the mental health provider. While not required between treatment providers, explicit authorization helps ensure timely coordination of care and guards against potential communication challenges before care is established.

CLOSING THE LOOP

- Develop a process to track referral completion. Ensure that the primary care team, mental health provider, and patient/family are satisfied before the referral is considered complete.
- Maintain regular care coordination by forwarding relevant documentation such as medication changes. Be clear with the mental health provider about what treatment-related information you need to continue to provide effective care.
